DESOUTTER / CP GEORGES RENAULT part number:

61591711XX

✓ 3 times longer service life*

✓ improved ergonomics*

✓ considerably cheaper prices*

* compared to conventional DC Tool Cables

BEIER™ High Performance Replacement Cables

BEIER™ Motor Cable MODCVI
for Desoutter EM Spindles
DS - 61591711XX / 05 / R

BEIER™ Slotted Push-Pull Shell:
Enables to lock the cable
via included screw clamp.

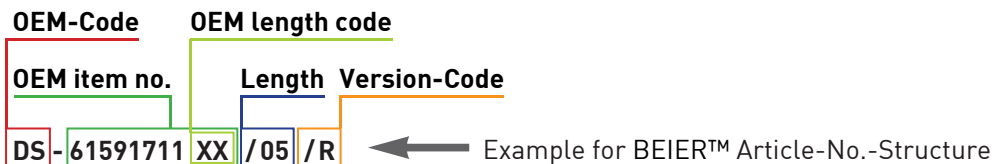

Minimizes vibrations within
connection between spindle
and cable as the main cause
for burning of pins.

Application note:

The **screw clamp at the tool connector should be tightened firmly** after the cable has been connected to the tool. This minimizes vibrations within the connector, which are the main reason for damages through burnt pins when using the original cable from Desoutter / CP Georges Renault.

BEIER™ REPLACEMENT-VERSIONS:

We have all common lengths on stock and can supply any special lengths on short notice. The **screw clamp** for improved connection is always included.

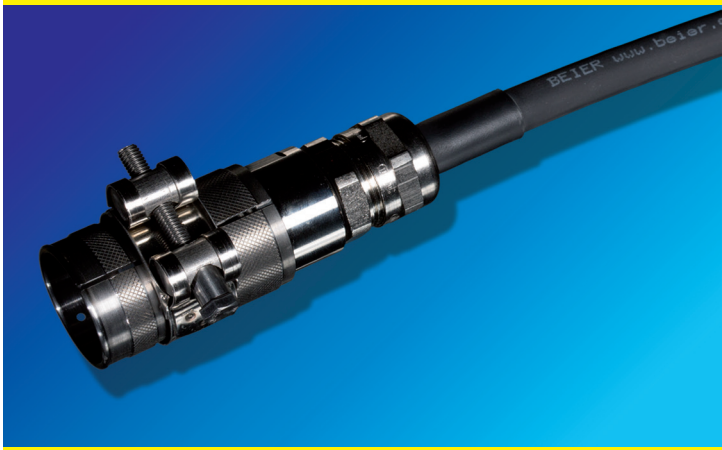

BEIER™ Article-No.	Description
